【 Israel-Lebanon: An Israeli armored force has attacked guerrilla positions on the slopes of Mount Hermon in what appears to be the largest Israeli strike ever mounted against Lebanese territory. Preliminary reports indicate that the Israelis have clashed with regular Lebanese forces. The apparent size and extent of the operation revives the possibility that Tel Aviv intends to create a "no man's land" inside the Lebanese border to inhibit terrorist assaults on Israeli settlements. The Lebanese cabinet is [redacted] meeting to consider the situation. [redacted]
